Real Democracy for the 21st century

Transparency and public information:
end of corruption and impunity

TECHNOPOLITICS

THE USE OF NETWORKS TO TRANSFORM REALITY

Optimal propagation processes, combining the ability to change and adapt with maintaining a stable identity over time.

WHAT WE HAVE LEARNT FROM THE NET AND HOW IT CAN BE EXTRAPOLATED TO ALL SPACES OF STRUGGLE

The Internet is not just a tool; it is an epoch in history.

The Internet is both a tool and a battleground.

Our main asset is surprise: the ability to do the unexpected, unexpectedly and in unexpected places.

We have to do our crying elsewhere.

Who, what, how, when, where. And above all: why.

Invention and experience at a time.

No problem should ever have to be solved twice.

Attitude is no substitute for competence.

Our time is the historical time, not the psychological time.

Herd and catalysts.

Justice and quality.

When you have no imagination, you turn to memory.

Federated skills.

Distributed leadership.

Participation and responsibility.

Recognition and collective intelligence.

The importance of the fork.

Altruism is selfishness that hasn't come out of the closet.

All that is outside of the centre will always be “more”: more representative, more numerous, bigger, freer, more flexible, more volatile, newer and, above all, more real.

WHAT WE HAVE LEARNT FROM THE NET AND HOW IT CAN BE EXTRAPOLATED TO ALL SPACES OF STRUGGLE

Representative democracy as the dictatorship of the largest minority over the majority of minorities.

We are uncountable and un-locatable. We work with what we have.

The objective of language.

No power means no rights. Transform our imaginary so we can subvert reality.

A strategic attitude to our desires and our nightmares.

Survival itself means learning to see what's ahead.

Logic is a feeling.

Without pleasure and rage, there's no empowerment. Without empowerment there's no rebellion. Without rebellion there's no r-Evolution.

The "Cult of Done".⁹

We shouldn't do the things we like to do, but the things that we can win at: and we'll end up liking it.

Then there are ethics, implicit in our actions. It is the direction of "doing".

We do not teach; we share and magnify shared perceptions.

All these steps are anti-natural. They all lead us to what we truly desire.

Moralism is a state of racism and cowardliness at the same time. It is the sense of superiority of the person who does not act.

My heroes are my comrades in the fight.

Be radical, ask for the possible.

Networked action as a struggle philosophy

PRACTICAL TEXTS FOR ACTION

WORKING NOTES FOR A r-EVOLUTION [2011] *by Simona Levi*

Our historic and strategic contribution to 15M's construction along with thousands of other people. <http://conservas.tk/working-notes-for-a-revolution/>

NOTES FOR A r-EVOLUTION (versión 2.0)

Stage two: vices vs new tactical virtues [2012] *by Simona Levi*

Xnet – Free Internet or barbarism

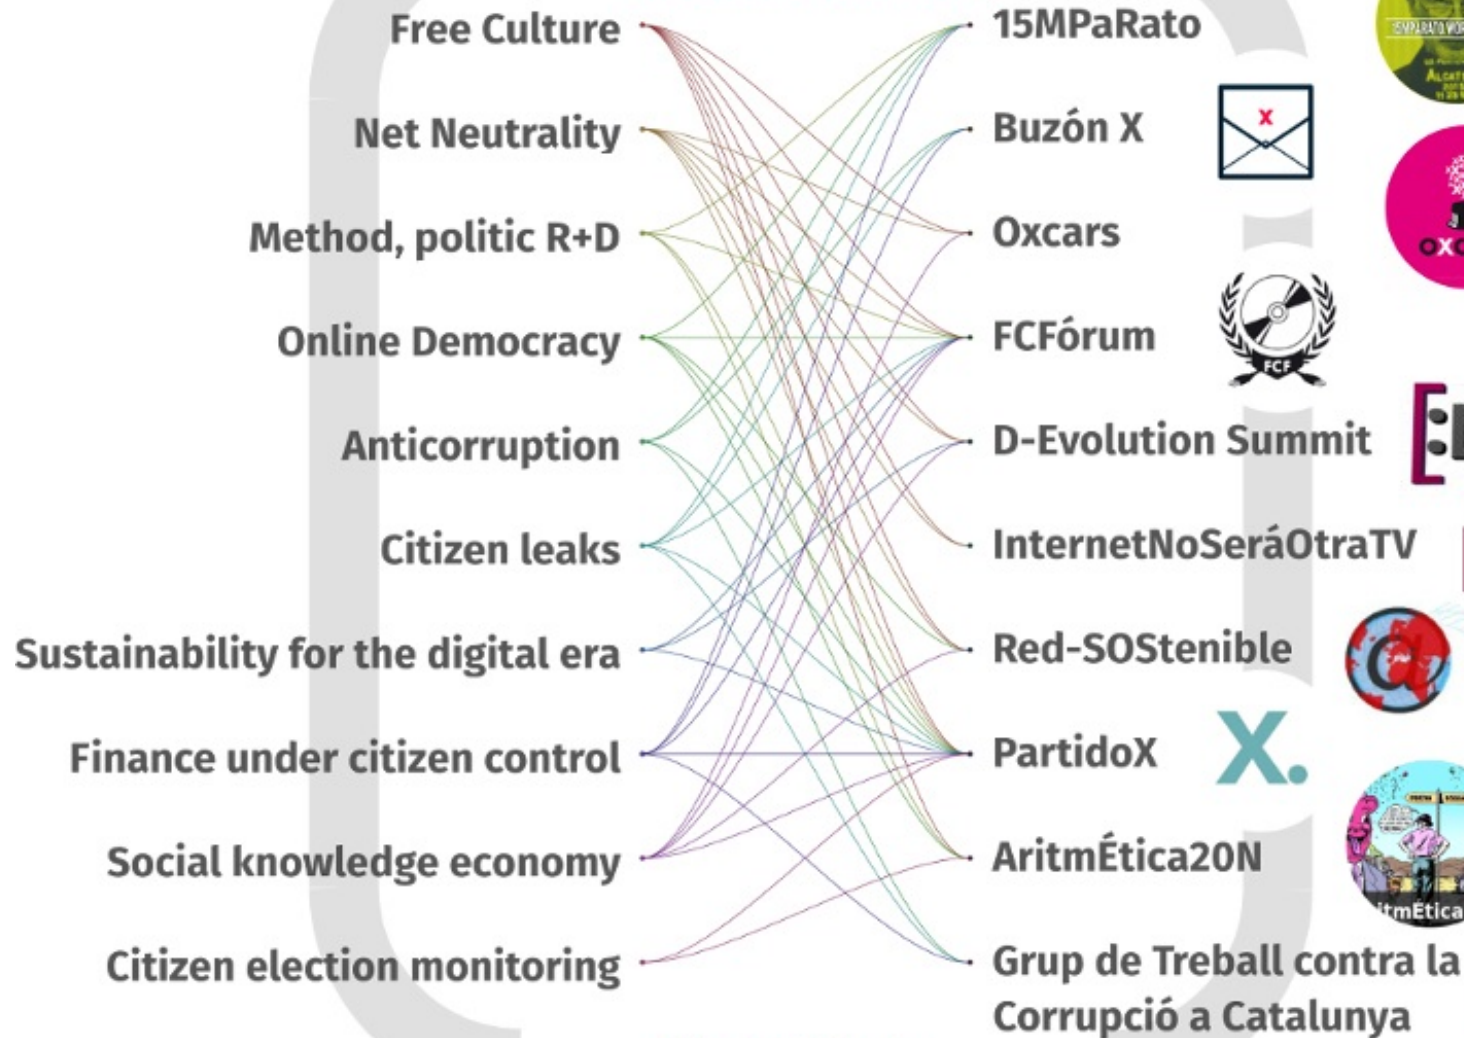

Xnet's work begins in 2008 under the name of **EXGAE**. It is set up by activists and artists coming from movements defending free culture and the Internet, the movement for the right to housing (VdeVivienda) and other citizen movements.

Xnet organises and begins to work in the defence of **sharing**, of the free flow of information and of free culture, promoting a critical debate on copyright, copyleft and licenses. Different dispositives are frequently launched as **anonymous** devices for specific issues or campaigns.

FREE CULTURE & INTERNET DEFENSE

MOLINA PÍRATE [2009]

<http://xnet-x.net/molina-pirate>

Campaign against an agreement promoted by the Spanish Minister of Culture - Cesar Antonio Molina - that would give private

Internet providers control of citizen's use of their ADSL connections, favouring multinational communication business and collection societies.

The public response to the agreement promoted Minister Molina's removal from office.

Video: <https://vimeo.com/3923179>

FREE CULTURE & INTERNET DEFENSE

RED SOS-TENIBLE [2010-2011]

<http://red-sostenible.net/>

A citizen platform, made up by collectives, associations and individuals coordinating to struggle against the Sinde Law and in defence of the **Network Neutrality** and **transparency**.

Through this network, actions against **ACTA** are also coordinated.

SINDE PÍRATE [2010]

<http://xnet-x.net/sinde-pirate>

Against the following Minister of Culture - Angeles Gonzalez-Sinde - and the so-called "Sinde Law", that typified the criminalization of downloads and the obtaining of profits and privileges for telecommunications companies.

Popular pressure through the Internet halted its approval during PSOE's government.

FREE CULTURE & INTERNET DEFENSE

BLACKOUT EUROPE in the Spanish state [2009]

<http://xnet-x.net/blackout-europe>

Campaign for the European elections of June 6th 2009: "we will not vote for parties that want to sell our right of access to the Internet to private interests."

STOP ACTA in the Spanish state [2010]

<http://xnet-x.net/stop-acta>

ACTA was another offense against culture's circulation on the Internet. Negotiated by a small "club" of countries with the same opinions instead of being democratically debated. ACTA bypassed parliaments and international organisations to dictate a repressive logic for the entertainment industries.

ACTA was rejected in the European Parliament on July 4th 2012.

FREE CULTURE & INTERNET DEFENSE

D-EVOLUTION SUMMIT [March 21st-23rd 2010]

<http://d-evolution.fcforum.net/>

Simultaneous action to the summit of the 27 EU Ministers of Culture and their encounter with the European Forum for Cultural Industries in Barcelona. It was conceived as a real-time chronic of what was going on and a lobbying action.

It achieved to substantially modify the content of the green book proposed by the European Commission.

THE DEAD HORSE THEORY

Drawing: Kevin Nevill

ARTIST: KEVIN NEVILL. ILLUSTRATION: KEVIN NEVILL.

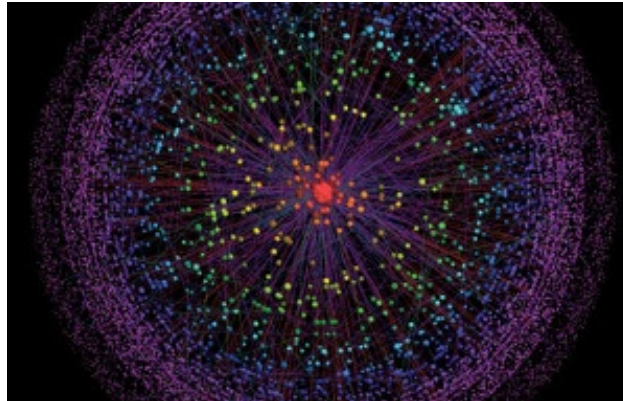

The tribal wisdom of the Dakota Indians, passed on from generation to generation, says that, "When you discover that you are riding a dead horse, the best strategy is to dismount."

However, in modern business education and government, a whole range of far more advanced strategies are often employed, such as...

1. Buying a stronger whip.
2. Changing riders.
3. Threatening the horse with termination.
4. Appointing a committee to study the horse.
5. Arranging to visit other countries to see how others ride dead horses.
6. Lowering the standards so that dead horses can be included.
7. Re-classifying the dead horse as "living impaired".
8. Hiring outside contractors to ride the dead horse.
9. Harnessing several dead horses together to increase the speed.
10. Providing additional funding and/or training to increase the dead horse's performance.
11. Doing a productivity study to see if lighter riders would improve the dead horse's performance.
12. Declaring that as the dead horse does not have to be fed, it is less costly, carries lower overhead, and therefore contributes substantially more to the bottom line of the economy than do some other horses.
13. Re-writing the expected performance requirements for all horses.
14. Promoting the dead horse to a supervisory position of hiring another horse.

TRAINING IN ONLINE ACTION

Radical Community Manager

Intensive training courses on digital tools and strategies, social networks and campaign design for organised citizens.

<http://xnet-x.net/en/get-in-touch-for/training-in-online-action/>

How to go deep into the Internet as a battlefield and how to gain the abilities to organise and amplify our actions, taking advantage of the synergies of the networked society.

THE STRUGGLE AGAINST CORRUPTION

15MPARATO: THE END TO IMPUNITY TO PERSUE THE SPANISH ECONOMIC & POLITICAL ELITES RESPONSIBLE FOR THE CRISIS

[May 15th 2012 – present day]

15MpaRato

It has succeeded in taking to court over 100 politicians and bankers with bails of more than 800 million euros.

<https://15mparato.wordpress.com/>

A communication guerrilla device planned to pursue those **politically and economically responsible for the crisis**, acting against the impunity of the Spanish elites.

An ethical and strategic goal was chosen: the former Spanish First Deputy Prime Minister and former managing director of the IMF - **Rodrigo Rato** - and his accomplices.

It collects and shares information that any citizen may have on Bankia and Rato, providing key evidence for the lawsuit. It is getting closer & closer to the objective for which it was created: **to rescue the citizens with money they stole from us.**

THE STRUGGLE AGAINST CORRUPTION

Bankia is the biggest hole. The hole sine qua non of the Spanish economy, of the great crisis of the Spanish economy.

#15MpaRato: el crowdfunding como instrumento de lucha contra los abusos del poder

11 DE JUNIO DE 2012 12:00h

Desde a un lado los activistas de la izquierda (la izquierda de la izquierda), desde el otro lado los activistas de la derecha (la derecha de la derecha), todos en la que se reúne el Consejo

ICTlogy
el arte de la tecnología

Crowdfunding político: la pieza que faltaba en la nueva política ciudadana

La sucesión de hechos alrededor de la campaña 15MpaRato merece una profunda reflexión, y no la por el fondo sino por las formas. Y merece una profundización porque se ha conseguido cerrar el círculo poniendo la última pieza del puzzle de esta nueva forma

THE STRUGGLE AGAINST CORRUPTION

15MPARATO: THE BLACK CARDS “Uncovered one of the biggest political & economical corruption scandal in the Spanish state's democratic history”

September 2014: **8000 emails** of Caja Madrid's managing board (later Bankia) are brought to light thanks to an **anonymous citizen leak** to our BuzónX

<http://xnet-x.net/en/get-in-touch-for/xmailbox-leaks-against-corruption/>

with the collaboration of the **X Party's Anticorruption Commission**.

<http://partidox.org/anti-corruption-commission/>

The emails revealed the use of **Black Visa credit cards** by Caja Madrid's advisors to **buy allegiances**: of individuals, **parties, unions and, ultimately, the government and the opposition**.

Consejeros según el partido político / sindicato por el que fueron propuestos

Beneficiarios de las tarjetas opacas de Caja Madrid

<http://15mparato.wordpress.com/2014/10/04/como-salieron-a-la-luz-las-tarjetas-negras-de-caja-madrid/>

THE STRUGGLE AGAINST CORRUPTION

15MPARATO: VICTORIES

It has been the constant presence and **work of vigilant citizens** - providing key evidence and making information reach the media and public opinion - that has unlocked the case and **forced the progress of justice**.

- After 2 years of litigation, **over 100 politicians and bankers have been taken to court**. All thanks to citizen collaboration and leaks.

<https://15mparato.wordpress.com/2015/01/28/imputados-tarjetas-black/>

- **It has proved that Bankia' flotation was a huge scam** as well as the preferred shares scandal. With the evidence presented to justice, it succeeded in helping thousands of small scammed savers recover their money.

<https://15mparato.wordpress.com/2014/12/04/mintieron-salida-bolsa-bankia-demostrado/>

- A **bail of 800 million Euros** has been imposed to the IMF's former president Rodrigo Rato and his accomplices, amongst them the banker Miguel Blesa. They have had to face with their patrimony two of the most substantial personal bails in the history of Spain and they are losing all their privileges.

<https://15mparato.wordpress.com/2015/02/13/fianza-rato-conseguido-800-millones/>

THE STRUGGLE AGAINST CORRUPTION

CATALONIA'S WORKING GROUP AGAINST CORRUPTION

[2014 - present day]

"We are responsible citizens. Did you think we were going to stand still watching?"

It gathers leading people and organisations active in the **fight against corruption in Catalonia**. Because governments entrenched behind penal codes and laws designed to punish those who fight and facilitate the impunity of those corrupt, can be defeated with the collective use of our right to know and to report.

<http://xnet-x.net/en/anticorruption-working-group-catalonia>

- They have taken the lead in the "**Pujol Case**" Parliamentary investigatory commission. <http://xnet-x.net/caso-pujol-grup-anticorrupcio-primer-round>
- They achieve a parliamentary motion to make the Catalan Government stand as private prosecutor against Princess Cristina and her husband for tax fraud in the "**Nóos Case**". <http://xnet-x.net/hacienda-somos-todos-enmienda>

NETWORKED DEMOCRACY

NEITHER VERTICAL NOR HORIZONTAL, AS A NETWORK OF SKILLED NODES

[2013 - present day]

The **Citizens' Network X Party** is a **citizen lobby** group, articulated as a network and specialized on the topic of **democracy**. It is based on the distribution of control over the government through multiple channels of collaboration, monitoring, participation and decision making based on **methodological guidelines, rather than ideological ones**. <http://partidox.org/en/>

Born anonymous on January 1st 2013 (against the cult of personalities), it remained so for 10 months with extreme efficiency, achieving over 100,000 votes in 2015 EP elections.

<http://partidox.org/2014-journey-into-spanish-electoral-system/>

This device is the first and only that has given answers to the critical issues raised by **15M's philosophy on the electoral field**, addressing and finding solutions to the vertical/horizontal & effectiveness/democracy dichotomies that new electoral devices have not resolved.

NETWORKED DEMOCRACY

THE X PARTY: I+D+X

WE ARE A SCIENTIFIC LABORATORY FOR A REAL DEMOCRACY

- **Transparency**, citizen control of the institutions.
- **Participation & Responsibility** against clicktivism.
- Tools and **collaborative program**, not a participation simulation.
- **Truly open lists**, not a circus of the famous.
- **Technopolitics** to renew the mechanisms of media-political dependence.

NETWORKED DEMOCRACY

THE X PARTY:

"If you want something different, do something really different."

<http://partidox.org/method/>

Justice, democracy and responsibility.

It is not ideology; it is methodology.

Work and logic.

Function as the scientific community: reserved research, all results open.

Does ideology exist? Yes, every one has their own, in their heart.

Make democracy operative.

It is not a union, it is federated skills.

The political meeting occurs in concrete things done, not within an ideological union.

It is not forever; the terms are driven by concrete action.

Democracy is not making comments. Neither an online survey. Democracy is organising our potential from our differences.

The devil is in the details. The lack of detail is simply demagogy.

We never start from scratch. All the ingredients are already there.

We cook with what we have, not with what we would want to have.

Who proposes it, does it.

Neither vertical structures that oppress us, nor horizontal structures that paralyse. We work as a network.

Participation implies responsibility.

To state an opinion without acting doesn't change reality.

Democracy is not thinking all alike, that's monolithic thinking. It is about learning to live with our differences.

Sequenced participation.

The decisions are weighted, not polarised by voting "yes" - "no"; "like" - "do not like". Polarisation favours those who want us confronted.

Reduce dissent and increase consensus through information. Having knowledge enables us to decide.

NETWORKED DEMOCRACY

THE X PARTY:

“If you want something different, do something really different.”

<http://partidox.org/method/>

A diverse and rapidly growing network, yet robust and synchronised (without thousands of confronted “Taifa kingdoms”).

Examples, not opinions.

The old parties are open to affiliation; networks organise through affinity and action.

Being informed is also a way of acting.

Create channels for concrete action.

To support is to be on guard.

To organise, we respect the 1-9-90 theory.

Need => Solution => Surveillance.

Just DEMOCRACY.

Adult and sovereign citizens. Institutions under citizen control.

A nonpartisan party.

Radical Democracy.

Mark the political agenda.

Never mention how bad everything is.

Rigorous work VS posts.

From the anonymous meeting to the non-meeting.

Be radical, ask for what is possible.

Antidotes against “nodism”, “trollism”, “forism” and “lobbism”.

Weighted open lists.

Transparent funding. Yes, transparent.

Incredible, we published our bills. Transparency with invoices instead of with drawings.

The end of privileges for elected representatives. Without demagogy, with arithmetic.

NETWORKED DEMOCRACY

THE X PARTY: METHOD & ROADMAP FOR 21st CENTURY DEMOCRACY

With a true democracy, citizens will have a say and control over decisions that affect us.

<http://partidox.org/pdf/manual-de-uso-integro.pdf>

NETWORKED DEMOCRACY

THE X PARTY: JUST DEMOCRACY

Real power must be in the hands of citizens, based on the **distribution of control over the government through multiple channels** of collaboration, monitoring, participation and decision making.

The X Party as a **solutions' catalyst** to enhance and make the most of knowledge already built in civil society. <http://partidox.org/pdf/democracia-y-punto.pdf>

Sequenced participation federating skills. We never start from scratch. Now that information and communication technologies allow it, it's time to include in governance forms, society's abilities to improve their institutions and laws.

Not everyone has to be competent in everything, but everyone should have **access to information to monitor** what others are doing in areas relevant to their lives.

NETWORKED DEMOCRACY

THE X PARTY: JUST DEMOCRACY

*4 MECHANISMS
TO RECOVER
CITIZEN SOVEREIGNTY*

- **Transparency in public management:** Citizen knowledge of all decisions and processes, data and circumstances involved in the decision making process.
- **Governments under citizen control (Wikigovernment) and Citizen Legislative Power (Wikilegislation):** Citizen participation in managing common affairs and lawmaking, in a collaborative and transparent manner.
- **Real and permanent right to Vote:** Recover and exercise sovereignty by voting whenever we consider necessary. No blank checks every 4 years.
- **Binding Referendum:** in cases of great significance, as structural changes in laws, or if the government does not address essential issues for citizens.

NETWORKED DEMOCRACY

THE X PARTY: DEVELOPMENT OF COLLABORATIVE PROGRAMS & AGAINST CLICKTIVISM IN THE NETWORK AGE

We should not start from scratch. It would be absurd given the immense work already done by civil society. We believe in **expert citizen knowledge; elected, monitored and amended** by citizens to defend their interests.

THE X PARTY: HOW DOES IT WORK?

<http://partidox.org/how-does-it-work/>

FEDERATION OF SKILLS & WEIGHTING

Neither vertical nor horizontal; networked and federating skills. Favouring the implication of the people and equating participation and responsibility.

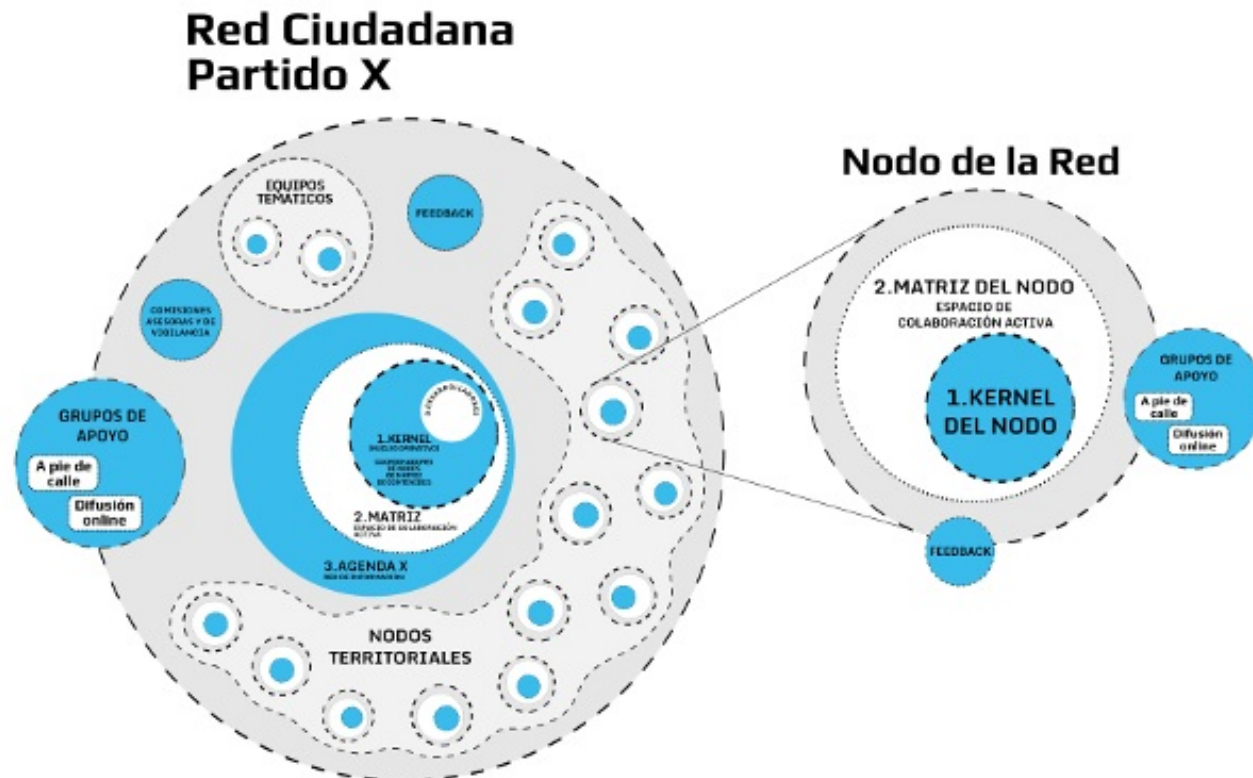

Decision making and responsibilities **weighted according to criteria:**

- **Implication**
- **Proven competence**
- **Seniority**
- **Rigour with the common objectives**
- **Peer recognition**
- **Respect for the working method**

NETWORKED DEMOCRACY

THE X PARTY: ORGANISATION & EFFICIENCY 90-9-1

For a truly democratic - open but operating - structure, participation intensities are balanced. The same occurs in different aspects of life, according to the 90-9-1 theory. In some cases we will be 90% spectator, in others 9% that actively supports and other times we will be the 1% pulling cart.

NETWORKED DEMOCRACY

Game over:

Let's use our vote so their numbers don't work out.

[2011]

The origins: **AritmÉtica20N**

An experience preceding the X Party: the successful campaign **AritmÉtica20N** (600,000 visits in 5 days). It proposed an alternative to abstention: **active strategic participation as a protest with a destituent goal.**

<https://aritmética20n.wordpress.com/>

To keep them busy negotiating pacts among themselves, while we continue with our r-Evolution towards new forms of democracy and governance.

- So far they have been lucky. We were not playing on their terrain. But now we have the opportunity and the strength to do so.
- Let's vote massively.
